

## ComplianceManager for Entertainment Industry

*“Powerful reporting capabilities supported by a superior business engine.”*

ComplianceManager enables a single, continuous compliance process that ensures compliance with PCI DSS, SOX, and with other compliance regulations for entertainment companies. ComplianceManager increases the effectiveness and timeliness of compliance and risk management programs, and significantly decreases costs for entertainment firms.

ComplianceManager addresses Data Privacy: Online music sharing, online purchases and downloads as well as the new methods of businesses communicating to other businesses such as retail outlets, TV studios, newspaper outlets, and web sites all introduce risks to entertainment firms. These new security risks can have devastating impacts on compliance as well as profitability and reputation.

ComplianceManager addresses Data Security: Internet based commerce capabilities for entertainment such as purchasing music online and downloading the files forces companies to evaluate their level of compliance with mandates such as the Payment Card Industry Data Security Standard (PCI-DSS).

ComplianceManager addresses SOX: Publicly listed entertainment companies must also comply with Sarbanes-Oxley (SOX). Sarbanes-Oxley (SOX) regulates corporate financial reporting and provides penalties for their abuse. SOX defines the type of data that must be recorded and retention policies. SOX also specifies the kinds of controls that must be in place, the testing requirements for key controls, and the necessary remediation and certification by management.

Specifically, ComplianceManager helps entertainment companies to comply with a myriad of regulations and operational needs including the followings:

➔ PCI DSS	➔ Internal Audit
➔ SOX	➔ Internal Quality Management
➔ Royalty Audit	➔ Vendor Quality Management
➔ Data Retention Compliance	➔ Internal Policies & Procedures
➔ Six Sigma	➔ Business Continuity Planning

ComplianceManager offers industry's most advanced and comprehensive suite of compliance management solutions to automate such initiatives. ComplianceManager solutions help entertainment companies to maintain high quality standards of delivered goods and services, reduce costs associated with poor quality, and drive improved operational performance.

In addition, ComplianceManager solutions for corporate governance, risk management and regulatory compliance enables entertainment organizations to make the shift from isolated compliance initiatives and departmental silos of risk-related information to integrated enterprise-wide governance, risk and compliance strategy.

ComplianceManager includes on-demand modules which can be easily integrated into an entity-wide Governance, Risk & Compliance framework such as Internal Controls, Risk Management, Policy Management, Quality Assurance and Regulatory Compliance. It comes ready with content and best practices templates, access to training content from subject matter experts, and integration of business processes.
